Distribution

In addition to EMAC OEM solutions; we offer a broad range of single board computers, embedded servers, rugged tablets, solid state drives, compact flash, and panel pcs from the leading names in embedded. We carry products from Advantech, Aaeon, iCOP, Kontron, iEI, as well as designing and manufacturing EMAC OEM products. Our experienced team can help you find a software/hardware solution that integrates commercial off the shelf (COTS) products and custom/semi-custom manufacturing when you need it. EMAC engineers and technicians can do as much or as little as your project needs. We can even ship the final product to your customer from our warehouse.
